RE: Pyros® eXpress Software V. 1.3.74 Upgrade

Dear Valued Customer:

As our customer of record, Associates of Cape Cod, Inc. (ACC) is pleased to share with you the latest release of our Pyros® eXpress Endotoxin and Glucan Detection Analysis Software (PEXS), version 1.3.74.

Pyros® eXpress endotoxin and glucan detection analysis software offers integrated solutions for your quantitative endotoxin and glucan detection testing, reporting, trending, and data management needs. Pyros® eXpress supports all the quantitative endotoxin and glucan detection assays from ACC, including our innovative recombinant BET reagent, PyroSmart NextGen® Recombinant Cascade Reagent (rCR), which allows users to test in a quality controlled environment quickly and efficiently.

As part of ACC's continuing efforts to incorporate customer feedback and refine our BET data collection systems, we have made a number of changes in this update. A detailed list of updates is included as a second attachment to this notification (Pyros eXpress Release Notes MKT# 26-336).

As a reminder, the latest version of the Pyros® eXpress Software and associated documents can be downloaded via The ACC Software Digital Distribution Portal. You can access the portal utilizing the following URL: <http://portal.acciusa.com/>. Simply select your software product, login or follow the easy steps to register.

If you wish to order these or any other products and services from ACC, please contact your local representative or email ACC at: custservice@acciusa.com.

We appreciate your business and will continue to provide you with leading products and services to meet your current and future needs.

Sincerely,

A handwritten signature in black ink, appearing to read "Sean A. Hauber", is written over a light gray rectangular background.

Sean A. Hauber
